ALUMINIUM PROFILES WRAPPED REAL WOOD VENEER

THE PERFECT BALANCE BETWEEN ADVANCED ENGINEERING AND NATURAL BEAUTY.

About FIAM

Since 1983, FIAM has specialised in wrapping aluminium profiles with genuine wood veneer, combining advanced manufacturing technology with Italian craftsmanship. Every profile is manufactured to customer specifications, delivering technical performance, refined aesthetics and long-lasting quality. Made in Italy.

FIAM s.r.l. – Via Castellana, 15 – 31010 CIMADOLMO (TV) Tel. +39(0)422/748025 Fax +39(0)422/743525
Partita IVA – Codice Fiscale 00644290264 - Capitale Sociale € 110.000,00 i.v.

Why Aluminium?

Performance without compromise.

Aluminium is the ideal material for contemporary furniture and architectural applications.

Real wood veneer wrapped aluminium profiles combine the ***structural performance*** of aluminium with the authentic character of genuine wood, creating a solution that meets the highest standards of design, ***durability*** and ***sustainability***.

Lightweight yet exceptionally strong, aluminium offers ***outstanding dimensional stability*** and ***long-term resistance*** to corrosion, moisture, UV exposure and weathering. It maintains its performance over time with minimal maintenance, making it suitable for both indoor and outdoor applications.

Its versatility allows the creation of slim, complex and highly ***customised profiles*** that would be difficult—or impossible—to achieve with solid wood or MDF, giving designers greater freedom without compromising strength or functionality.

The application of genuine wood veneer enhances each profile with the warmth, texture and ***uniqueness of natural timber***, while ensuring consistent manufacturing quality and a refined, contemporary aesthetic.

Fully recyclable and designed for longevity, real wood veneer wrapped aluminium profiles represent a responsible choice for projects where innovation, craftsmanship and timeless elegance come together.

Its outstanding strength-to-weight ratio allows the production of ***slim and complex profiles*** that cannot be achieved using solid wood or MDF.

FIAM s.r.l. – Via Castellana, 15 – 31010 CIMADOLMO (TV) Tel. +39(0)422/748025 Fax +39(0)422/743525

Applications

Office partitions, shelving systems, kitchens, bathrooms, tables, lighting, hospitality, retail and outdoor furniture.

Indoor Collection

Warm natural wood aesthetics combined with structural precision for contemporary interiors.

Clean lines, structural stability and the warmth of natural wood make wrapped aluminium profiles the ideal solution for office partitions, desks, shelving systems and collaborative spaces.

Outdoor Collection

Designed to resist moisture, UV exposure and weathering while preserving the beauty of real wood.

The natural beauty of wood combined with the durability of aluminium for long-lasting outdoor performance.

Wood Species

European Oak, American Walnut, European Ash, Iroko, Teak, ALPI veneers. Custom species and finishes available.

Tailor-Made Solutions

Every project is unique.
Thanks to our production flexibility, we cover customised aluminium profiles with genuine wood veneer according to customer drawings and specifications.
Cnc working and lacquering is part of our service.
